

## Permanent Coffee Filters

- **23 carat gold-plated metallic filter foil**
- suitable for most drip coffee makers
- handle for easy removal
- full development of the coffee flavour
- friendly to the environment
- good value, longevity
- dish-washer proof
- optimum time of infusion thanks to the precise openings of the filter foil

## Enlargement of the Filter Foil

- filter foil made by electro-forming
- neutral to taste filtration
- undesired residues are held back

## Permanent Tea Filters

- **23 carat gold-plated metallic filter foil**
- available in several sizes
- allows generous steeping of the tea leaves, thus a full development of the tea flavour
- good value, longevity
- dish-washer proof
- absolutely neutral to taste filtration
- dosage and steeping time to individual taste
